### USAGE

1. Extend headband to maximum "open" position and place the cups over the ears with the earheadband passing over the head.
2. Settle the headband in position on the head while adjusting the height of the ear cups until they feel comfortable and the headband rests on top of the head to support the muffs.
3. The ear cushions should be adjusted to a snug fit against the head.
4. Adjust the headband & ear cups to ensure an effective noise seal.

### WARNING

1. The earmuff should be regularly checked for serviceability. Put the earmuffs on before exposing to noise, and wear them during the whole noise exposure.
2. Earmuffs, and in particular cushions, may deteriorate with use and should be examined a frequent intervals for cracking and deterioration. Replace ear-muffs after 2 to 3 years normal use or sooner if they show any signs of deterioration.
